

SAHIL KARKI

Palam, New Delhi | +91 9220460134 | karkisahil2003@gmail.com | [[GitHub URL](#)]

SUMMARY

MCA student with hands-on project experience in data analytics and full-stack web development, using Python, SQL, Power BI, React, and Django. Built and deployed multiple end-to-end projects covering data cleaning, dashboarding, and business intelligence reporting, as well as full-stack applications with real database integration. Seeking a Data Analyst or Full-Stack Developer role to apply these skills and contribute from day one.

SKILLS

- Programming Languages: Python , JavaScript
- Data Analytics: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Exploratory Data Analysis (EDA)
- Databases: SQL, PostgreSQL, MySQL
- Web Development: React, Django, HTML, CSS, REST APIs
- Tools & Platforms: Git, GitHub, Vercel, Railway, Supabase
- A.I Tools: ChatGPT , Claude , Gemini

PROJECTS

Customer Shopping Behavior & Analytics Dashboard | *Python, SQL, Power BI, Excel* | [[GitHub Link](#)]

- Developed a complete data analytics solution analyzing purchasing patterns across 3,900+ customers, utilizing Python, SQL, and Power BI.
- Conducted data cleaning and feature engineering in Jupyter Notebooks (.ipynb) to handle missing values and prepare structured datasets for visualization.
- Built a multi-page business intelligence dashboard featuring subscription status analysis, category revenue breakdowns, and age-group sales segmentation.

Zepto Sales Data Analysis (SQL Project) | [[GitHub Link](#)]

- Performed data cleaning and analysis on retail sales data using PostgreSQL
- Wrote complex SQL queries involving joins, aggregations, and window functions to extract business insights

BNP Sales Analysis & Business Intelligence Dashboard | *Microsoft Excel (Pivot Tables, Charts, Slicers)* | [[GitHub Link](#)]

- Designed and developed an interactive sales performance dashboard in **Microsoft Excel** tracking a total revenue of **₹35.2 Lakhs** across **1,000+ orders**.
- Utilized advanced Excel features including Pivot Tables, dynamic slicers, and calculated fields to analyze revenue distribution by product categories, months, and customer occasions.

GitaPath - Bhagavad Gita Reading Web App | *React, Vite, Django, PostgreSQL* | [[GitHub Link](#)]

- Built and deployed a full-stack Bhagavad Gita reading application with a **React (Vite)** frontend and a **Django** REST backend.
- Designed a fully responsive UI for seamless reading across mobile and desktop devices, with data served from a **PostgreSQL** database.
- Set up a production deployment pipeline with the frontend hosted on **Vercel** and the backend on **Railway**, connecting separate frontend/backend services into a single live application.

EDUCATION

Master of Computer Applications (MCA)

IGNOU (Indira Gandhi National Open University)

Expected Graduation : 2027

Bachelor's Degree — Trinity Institute Of Professional Studies, 2025

Dwarka (GGSIPU)

CGPA : 8.4

CERTIFICATIONS

- Data Analytics Job Simulation — Deloitte (via Forage), Dec 2025
- Data Analysis using Excel — Great Learning Academy, Apr 2024
